Products Portfolio

The Industry's Most Complete Skype for Business Solution Portfolio

Enterprise Grade Implementation of Skype for Business

Coexistence, Migration & SIP Trunking

Have an existing telephony system or various telephony islands that need to be migrated?

AudioCodes delivers a comprehensive solution for migration, integration and SIP trunking connectivity. Compatible with virtually any PBX, AudioCodes' simplified dialing plan AD integration protects investment in legacy equipment.

Security & Fraud Prevention

Worried about attacks causing voice disruptions, theft of services or other threats exposing your voice infrastructure?

AudioCodes secures the integration of unified communications and external voice services with attack detection and topology hiding.

Devices & Productivity

Need to improve employee efficiency while integrating UC into the work environment?

AudioCodes delivers the ideal desk phone products that are intuitive to work with and deliver uncompromising quality.

Compliance & Recording

Required to record customer interactions and telephone calls or deliver emergency calling services?

AudioCodes helps businesses address compliance and regulation with E911 location services support and compliance recording.

Resiliency & Recovery

Challenged to design a resilient network that is able to recover and survive voice network interruptions?

AudioCodes has a broad portfolio of resiliency products and solutions. Designed for maximal functionality or cost effectiveness, AudioCodes delivers the most robust portfolio on the market.

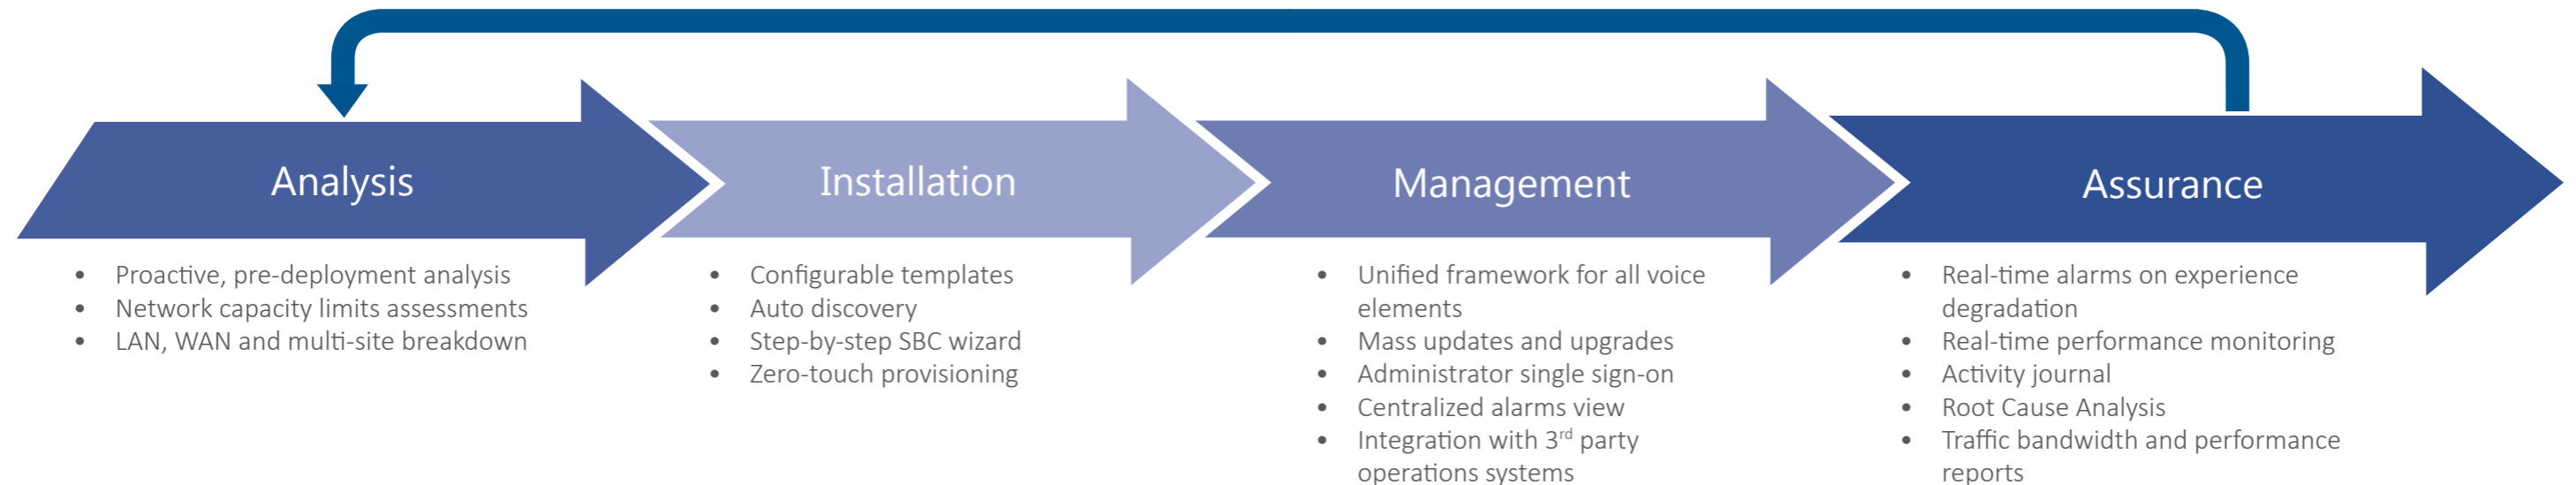

All-in-One Voice Solution

Need to deliver voice service to Office 365 users, or to replace an aging PBX?

AudioCodes CloudBond 365 enables a wide range of solutions for cloud-hybrid deployments, remote branch offices, PBX replacement and UC pilots.
